DETAILED ACTION

Response to Amendment

1. The compliant amendment and remarks, filed June 11, 2007, are noted with appreciation.
2. Claims 1-5 and 7-23 remain pending.

Response to Arguments

3. The objection to claim 11, as well as the rejections of claims 7 and 17 under 35 USC 112, 2nd Paragraph, set forth in the prior Office action, are withdrawn in light of the amendment filed June 11, 2007.
4. The rejection of claim 6 under 35 USC 112, 2nd Paragraph, set forth in the prior Office action, is moot in view of the cancellation of this claim in the amendment filed June 11, 2007.
5. With respect to the prior art rejections, Applicant's arguments have been fully considered but they are not persuasive. Independent claim 1 requires that the resin be cross-linked solely by exposure to UV radiation. It is the Examiner's position that the fair teaching of this reference is that the cross-linking involved in the curing of Baumgart is the result of exposure to the UV radiation and that exposure to thermal radiation is part of the curing process, does not contribute to cross-linking. As such, this reference continues to read on the claims.

Claim Rejections - 35 USC § 103

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

7. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

8. Claims 1-5 and 7-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Baumgart et al. (WO 03/000812 A1; reference made to US 7,064,165 B2 as English-language equivalent).

A. These claims are rejected for the same reasons set forth under this heading in the prior Office action and as further explained above.

Allowable Subject Matter

9. Claim 23 is allowed.

10. The following is an examiner's statement of reasons for allowance: The reasons remain the same as set forth under this heading in the prior Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

12. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
